

EMERY IN NEW ROLE LAST EVENING.

Creates Sensation by Taking First Place in Mile Handicap.

HOPPER RIDES WITH "PROS"

Finished Ahead of Hoffman and Chapman—In Five Mile Race Haggren Defeats Redman.

Saucer patrons saw "Uncle" O. E. Emery in a new role last evening. It is said everything comes to him who waits while he waits. Emery has done both for a long time, and at last fortune has smiled on him and he has enough coin to purchase a new hat, new shoes and possibly a new sweater like Hoffman wears. The Rip Van Winkle of the track actually pulled down first place in the one-mile professional handicap last evening. You don't believe it? Well, it's a fact, and "Uncle" Jack Haggren assisted him in the undertaking. Emery thought it about time to show some of the other riders that they didn't have a monopoly on speed and with Haggren he started out from the 11 yard mark and kept up a sprint for eight laps. This pair took an unlooked-for advantage of the other riders. They had agreed late in the evening to use their heads as well as their legs, and the result was that victory perched proudly on their banners. While Emery did not exactly break the world's record, still he got first money and that is what he was out for. Haggren paced Emery, then Emery paced Haggren, and they kept right on going. The crack sprinters were left far behind. Hoffman rode the bank in the hope that someone would do the donkey work, but they all refused. Emery and Haggren kept right on. Finally Hoffman jumped out to catch the leaders and the leaders went faster. Young Hopper, the new professional, tackled onto Hoffman and soon passed him, getting third place in the half.

George A. Maxwell made a big hit with his new "jigger," the single motor machine, which he operates from the handlebars. He paced Haggren in the latter's five-mile race with Redman, and gave Haggren the race that not only carried him around the winner, but beat Redman by nearly three laps. Maxwell easily demonstrated his ability to run right away from any of the big machines on the track.

The match race between Furman and Houseman was all the former's. He took the race in two straight half mile heats.

Barney Oldfield has a new motor. It is a single, and last evening he gave an exhibition mile with it. The distance was covered in 1:30. The machine did not work regular, but it will have to do much better to stand any chance against Maxwell's flyer.

The summary follows:

Mile professional handicap, final—Emery (15 yards), Haggren (12 yards), Hopper (30 yards), Hoffman (scratch). Time—1:55.4-5.

Match race between Furman and Houseman, half mile heats, best two out of three—Won by Furman in two straight heats. Time—1:06.3-5, 59.4-5.

Mile exhibition by Oldfield on single motor. Time—1:30.4-5.

Five-mile motor race between Haggren and Redman—Won by Haggren by two and a half laps. Time—8:30.4-5.

Word has reached this city of a bad accident which happened to Billy King on the Asbury Park track, New Jersey, yesterday. King was riding with Charles Hatfield, Eddie Bald and Penn, in the National Circuit races. The event in which the accident happened was a two-third mile consolation race, and Hatfield fouled King. Then there was a terrible fall, five riders going down. In the mix-up King's right ear was nearly severed from his head. Hatfield was disqualified.

CHAMPIONSHIP TENNIS.

Boston Man Defeats Dr. Joshua Pitt Of England.

Newport, R. I., Aug. 22.—The tennis of the fourth day of the national championship at the Casino was made noteworthy by the defeat of Dr. Joshua Pitt, a former champion of all England, by a man of Boston accomplished in the downfall of the British veteran and did it in straight sets. This match, however, was only one of a number of interesting contests in which the best of the world were engaged. The event which attracted the most attention, Whitman winning three sets to one.

In this latter event, the absence of Doherty and Richard Stevens. Here they found the excitement which they craved, for by playing his steady base line game Stevens not only took a set from the Englishman, but came within a single stroke of another. With the sets one—all the games five to four, and the score 4-3. Stevens missed scoring on a fine pass by a few inches, the ball going just that distance outside. Doherty then evened matters without difficulty, and although Stevens won another game, the Englishman ran out and set 8-6. The next went to him, 6 to 1, and the match was finished.

GEERS DROVE MONK.

Result is That Lord Derby Was Badly Beaten.

Readville, Mass., Aug. 22.—The one great surprise at the Readville track on today's grand circuit card was the appearance of Lord Derby in the 2:07 trot. The surprise was not carried out to the extent of his winning the race, for Geers drove The Monk under the wire ahead of him in two straight heats, and won in the first heat 2:05, and in the second 2:04. MUCH WATER GIVING TROUBLE.

Aquatic Difficulties Greater Than Advocates for Chosen Federal Building Site Calculated Upon, but Just What Conservative Citizens Said Would be Encountered.

Photo by Harry Shipley.

PUMPING WATER FROM FEDERAL BUILDING FOUNDATION.

The government authorities are having much more trouble than they anticipated in putting in a foundation for the federal building at the corner of Main and Market streets. The flow is large and constant and requires the ceaseless working of a pumping apparatus to keep the excavation from filling up.

This was the fear that many citizens had at the time the selection of a site was before the authorities at Washington. They pointed out that the location in question was in low ground, that it was on ground known to be "full of water." But specious pleas and protests were made against this claim until they were believed and the matter decided in its favor and against all competitive sites. Since water has been struck in such copious quantities the question has arisen as to whether or not the site will not have to be abandoned.

for one of those that was in competition with it, or for some other. There has been some discussion talk in this direction, but nothing definite. Whether steps will be taken to that end remains to be seen. The matter is now before the officials at Washington and an expert is coming to look into the situation.

Of course Uncle Sam has got money enough to put in a foundation there that will support the structure all right just as he could probably build one in mid-ocean, if it were necessary, but the cost will be very much greater than it would have been had a site with a solid foundation been selected instead of one that has a combination of water and quicksand. It is an admitted fact that an enormous foundation must be put in. If that is not done the walls of the new structure for which the people of Utah have been waiting so long will surely crack if indeed the whole building will not be abandoned.

TAFT REACHES MANILA.

Was Welcomed with an Enthusiastic Popular Demonstration.

Manila, Aug. 22.—Gov. Taft reached here this morning at daylight on board the United States gunboat Gen. Alva, from Singapore, Straits Settlement. He was welcomed with an enthusiastic popular demonstration. The day had been made a holiday and the city was decorated. Eight large arches had been erected on the streets. Twenty thousand natives, from the adjoining provinces participated in the demonstration in honor of the governor's arrival. There was a parade of vessels in the bay, and thirty dead end craft carrying members of the civil commission, military officers and the reception committee to meet the gunboat in the bay and escorted Gov. Taft to the entrance of the Pacific river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome Gov. Taft outlined the progress and the result of his negotiations in Rome in the matter of the Philippines, and said all church questions were progressing toward a satisfactory settlement.

The governor said the action taken by Congress concerning the Philippines showed that the American people honestly desired to help the Filipinos. The Philippines were determined that the islands should not be exploited by Americans at the expense of the Filipinos.

Gov. Taft predicted that eventually the archipelago would have practically free trade, and he congratulated the Filipino people upon the restoration of peace. He advised the Filipinos to till the soil and restore their country rather than waste time in useless political agitation. He promised personally to labor for the natives, and asked for their confidence and support.

Gov. Taft was given an ovation on the streets of the city during his passage to the palace and he received another ovation at his reception.

Probably He Was Murdered.

North Yakima, Wash., Aug. 22.—The body of a man was found today in the wreckage along the railway track north of the Yakima, Okanogan mills. The man died from the effects of a bullet wound in the left breast over the heart and it is supposed that he was murdered. It is not known who he is. A book found in one of his pockets contained the name of Moulton, Camden, Ark. At 5 o'clock a. m. today a pistol shot was heard by the people living in the vicinity where the body was found. Eusebio later found the body, and evidence showed that he had been dragged several yards through the brush and left there.

Army-Navy Maneuvers.

Washington, Aug. 22.—The general plan of the army and navy maneuvers, which are to begin Aug. 29, as agreed to by Maj.-Gen. MacArthur and Rear-Admiral Higinson, the respective commanders of the land and sea forces, at their recent conference, has reached Washington and the instructions which will be issued by the two branches of the service to the opponents in the war game will be prepared here. These instructions will be of the same character as those which were issued to the commanders of the white and blue squadrons, which now are vying with each other off the New England coast. Later when the joint maneuvers begin the character of the problems worked out by the war board together with the instructions and rules governing the contest, will be made public.

Posse Will Pursue Outlaws.

Middlesboro, Ky., Aug. 22.—An organized posse will leave Freeling, Va. tonight for the purpose of pursuing the members of the George Potter band of outlaws, who are said to be guilty of several murders, numerous robberies and other offenses. Their last crime was an assault upon Miss Cora Wallis, a prominent young woman. George Potter, the leader and principal in the affair, was pursued by a posse and killed with bullets. His comrades escaped to the Kentucky border. The Freeling posse will take them dead or alive.

Wireless System Works Well.

Denver, Aug. 22.—A dispatch received today at the headquarters of the Pacific Wireless Telegraph company in this city announces that the office at White's Point, Cal., will be opened tomorrow morning for commercial business. The Pacific company's wireless system between Catalina Island and White's Point, 36 miles, is reported to be working perfectly, messages being sent as rapidly as over a wire.

Engineer Killed in a Wreck.

El Paso, Tex., Aug. 22.—William G. Schwartz, engineer, was killed, and Jesse Hammer, fireman, probably fatally injured in the wreck of an extra freight train last night near Sierra Blanca, Tex., El Paso county, on the G. H. & S. A. railroad. Heavy rains from the mountains had washed away the track and in the intense darkness, the engine and several cars were precipitated from the track. Schwartz was caught in the gangway and pinned down, and although he slightly injured, was slowly scalded to death. The fireman and engineer lived in El Paso.

Baker City Warehouse Burned.

Baker City, Ore., Aug. 22.—The storage warehouse of Patterson & Eppinger, proprietors of the Queen City Furniture company, was destroyed by fire this afternoon. The building was full of new furniture. William Whitesides and H. L. Allen were in the warehouse when the fire broke out, and both were severely burned. Loss, about \$7,000.

Ireland for Cardinal.

New York, Aug. 22.—The statement is cable to the Tribune from Rome that the recommendations under consideration to the Vatican have Archbishop Ireland nominated as a cardinal, have now assumed imposing proportions, as setting forth that the red hat would be a due reward for the success the papacy obtained through him by the Taft mission coming to Rome. The statement is further made that some of Archbishop Ireland's friends are so influential that the Vatican would like to satisfy them, notwithstanding the reluctance to have America have more than one cardinal. This plan of having Archbishop Ireland a cardinal of the curia residing at Rome is opposed by the other cardinals of the curia, who find him too clever, too progressive and too American.

A project that is whispered, continues the correspondence, is that Bishop Quiley of Buffalo having refused the archbishopric of Chicago, Archbishop Ireland will be appointed there as a tit for his activities and being created a cardinal, he would have the west under his jurisdiction while Cardinal Gibbons would have the east.

Joseph Haworth will electrify the matinee patrons once more next Wednesday.
